Education

University of Science, Vietnam National University Ho Chi Minh City Year 2
Undergraduate student, Faculty of Information Technology.
Cumulative GPA: 8.37/10

Current Research Interests

LLMs and Agentic AI.

Research Experience

Reply 404 — Interactive Video Retrieval 2026
AI Challenge TP.HCM · github.com/lenamkhanhh/HCMAIC-Retrieval
- Contributed to a multimodal video retrieval system over 1,487 videos and 533,286 keyframes.
- System combines visual, text and speech signals with temporal-event alignment, evidence inspection and DRES submission. Technologies include Python, SigLIP2, FAISS and GEMTRA.

Accepted Research Paper

Le Nam Khanh.
Reply 404 at VBS 2027: Interactive Video Retrieval with Temporal Alignment and Native DRES Integration.
Accepted, VBS at MMM 2027 · Camera-ready in preparation.

Selected Technical Projects

HrClaw — AI-assisted recruitment and CV scoring.
Finalist team, K-Tech College Ideathon 2026. github.com/Mhoaii/HrClaw

TripFlow Workbench — Collaborative trip planning and group expense application.
AI-assisted development. Live demo

AI Account Switcher — Desktop tooling with a local API gateway and CLI integration.
AI-assisted development. github.com/lenamkhanhh/ai-switcher

Honors & Competition Record

HCMUS Coding Challenge — Champion. 2026
AI Challenge TP.HCM — Finalist, Table A. 2026
GDGoC AI Challenge — Top 20 Outstanding Team; team “Khô gà xé xợi”. 2026
30th National Young Informatics Contest — First Prize, Central Region, Table C2; 2024
Honourable Mention at the national finals.
28th Traditional April 30 Olympiad — Bronze Medal in Informatics. 2024
Provincial Informatics Examination — Second Prize, Grade 12, 2025;
Third Prize, Grade 11, 2024; Third Prize, Grade 10.
Provincial team participant, National Excellent Student Examination in Informatics. 2024–25
Codeforces — Expert; peak rating: 1854. Average2k7

Technical Skills & Languages

Programming: C++, Python.
English: IELTS 6.5.
